High quality positioning equipment

Chucks

Quick clamping chucks

D-D

The D-D Series chucks are used for clamping work pieces for welding, and are mountable on any brand of positioner. The D-D series feature a quick clamp open/close lever to firmly lock and release the workpiece. A wrench is not needed, because the levers in the 3-jaw chuck are integrated.

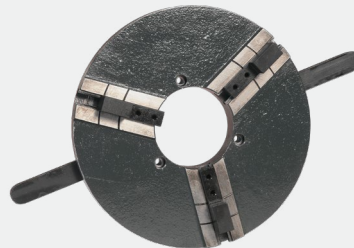

Features

- 3 or 4 self-centring jaws
- Reversible jaws
- Rapid tightening handles allow fast loading and unloading
- Suitable for smaller welding positioners given lightweight and low-profile design
