

DUMETA®

High quality positioning equipment

Machine Vices

Self-centering

D-DWV

The D-DWV vices excel in securely clamping heavy and large workpieces onto a work surface. They are suitable for both round and parallel workpieces. Robust and long-lasting construction with a clamping range of up to 1000 mm.

Custom-made vices are available upon request.

Features

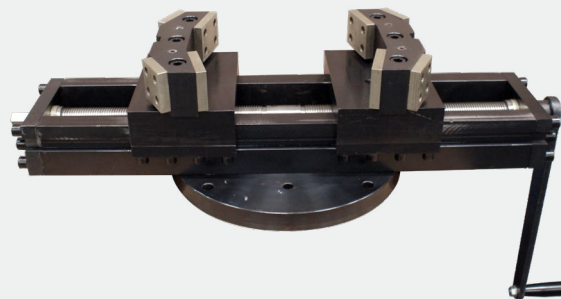

- Self-centring
- For clamping of round and parallel workpieces
- Strong and durable construction creates high stability
- Clamping range up to 1000 mm
