# CHUCKS

3-jaw-chuck self-centring with extended jaws

## D-KII-1500A

This chuck consists of a solid cast iron body with a very solid interior that guarantees high accuracy and a very high clamping force.

### FEATURES

- For clamping round workpieces.
- 3 sets of different jaws included for a large clamping range from Ø50 – Ø1500 mm.
- Large bore ø260 mm.
- High clamping force: 72 kN.
- Mounting connection: ISO3442.

### OPTIONAL

- Also available as 4-jaw-chuck.
